

Proper physical orientation of the aluminum CUBE sensor to correspond to the annotation in the data file

Such an orientation of the sensor will correspond to the labels provided in the data file:

	AC	AD	AE	AF	AG	AH	AI	AJ	AK	AL	AM	AN
1	UP LW RADIANT TEMP (*C)	NORTH LW RADIANT TEMP (*C)	EAST LW RADIANT TEMP (*C)	SOUTH LW RADIANT TEMP (*C)	WEST LW RADIANT TEMP (*C)	DOWN LW RADIANT TEMP (*C)	UP SW RADIANCE (W/m^2/sr)	NORTH SW RADIANCE (W/m^2/sr)	EAST SW RADIANCE (W/m^2/sr)	SOUTH SW RADIANCE (W/m^2/sr)	WEST SW RADIANCE (W/m^2/sr)	DOWN SW RADIANCE (W/m^2/sr)
2	25.39	24.94	27.27	25.33	24.7	25.61	0	0	0.55	35	0	2.46
3	25	24.97	26.69	26.04	24.69	25.61	0	0	0	36.91	0	0.55
4	24.91	24.87	26.19	26.37	24.66	25.55	0	0	0	36.46	0	3.87
5	24.94	24.86	26.14	26.41	24.69	25.54	0	0	0	27.34	0	0.55
6	25.74	24.83	27.14	25.36	24.7	25.55	0	0	0.46	36.23	0	2.51
7	26.65	24.89	27.11	24.93	25.22	25.73	0	0	0	22.97	0	3.28

Overview of the positioning of CUBE 1 (MOBILE) sensor and its orientation

Measurement 1 (8:55-9:15) OUTDOORS

Measurement 6 (10:55-11:10) OUTDOORS

Measurement 7 (11:18-11:35) ATRIUM

The sensor was oriented this way, correct the orientations in data file accordingly

- SOUTH from the data file should correspond to NORTH
- NORTH from the data file should correspond to SOUTH
- WEST from the data file should correspond to EAST
- EAST from the data file should correspond to WEST

Overview of the positioning of CUBE sensors and their orientation

Measurement 2 (9:32-9:47)

The sensor was found to be oriented this way at the end of the session (perhaps it was moved at the session), correct the orientations accordingly

East from the data file should correspond to North, etc.

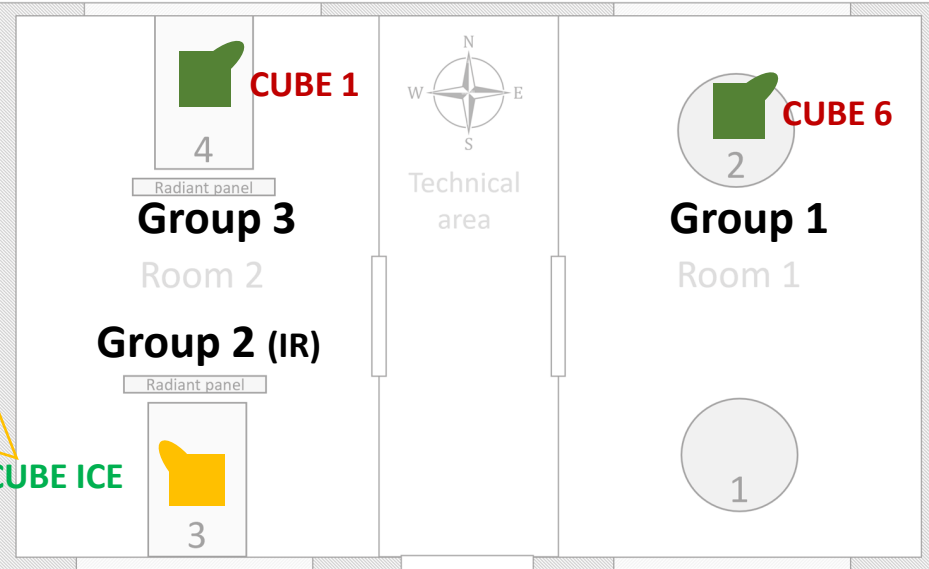

Measurement 4 (10:10-10:25)

Measurement 3 (9:51-10:06)

The sensor was oriented this way, correct the orientations in data file accordingly

East from the data file should correspond to North, etc.

Measurement 5 (10:30-10:45)
